PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of professional experience architecting robust PHP backends using CodeIgniter, MySQL, REST APIs, and JWT authentication, complemented by 1+ year of hands-on React.js development. Proven track record of designing and deploying production-grade systems — including a library management platform and an eCommerce solution with integrated payment gateways and shipping APIs — that deliver real business value. Adept at crafting dynamic, pixel-perfect user interfaces with React, Redux Toolkit, and TanStack Query, with a strong eye for clean, maintainable code. Committed to continuous growth as a Full Stack Developer, bridging solid backend engineering with modern, user-focused front-end design.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript, React.js, Tailwind CSS, Redux Toolkit, Context API, TanStack Query, Formik, Yup/Zod

Backend: PHP, CodeIgniter, REST API Development, JWT Authentication, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Hostinger & VPS Server Management

WORK EXPERIENCE

PHP Backend Developer — Shopno eCommerce Pvt. Ltd., Surat Jul 2023 – Present

- Developed and maintained production-grade backend systems using PHP, CodeIgniter, and MySQL, supporting real-world business operations.
- Designed and implemented REST APIs with JWT authentication for secure data exchange between backend and client applications.
- Built and managed server-side architecture, ensuring scalability, performance, and reliability of live applications.

React Developer — Freelance, Remote 2026 – Present

- Delivered front-end solutions for multiple clients using React.js, JavaScript, Redux Toolkit, and Tailwind CSS.
- Built dynamic, responsive user interfaces with a focus on clean component architecture and maintainable code.

PROJECTS

Library Management System

PHP, CodeIgniter, MySQL, REST API, Bootstrap

- Built a complete digital library solution for JD Gabani Library handling book issuing and receiving with automatic late fee calculation.
- Implemented member management and real-time book availability tracking.
- Generated detailed transaction reports and receipts for every book issue/return.

Mokonut eCommerce Platform

PHP, CodeIgniter, MySQL, Payment Gateway, Shiprocket API, REST API

- Developed a full-featured eCommerce website with integrated online payment gateway for seamless order placement.
- Integrated Shiprocket API for automated order fulfillment and shipping management.

- Built a complete REST API to power a companion mobile app, including order tracking, receipts, and delivery management.

Profile & User Management App

React, React Router, JavaScript, Tailwind CSS

- Developed a React application featuring a personal profile page and a full user management module.
- Implemented user listing with individual detail views and clean routing between pages using React Router.

Personal Portfolio Website

React.js, Tailwind CSS, React Router

- Designed and built a fully responsive personal portfolio with animated sections, skill progress bars, and a contact form.
- Implemented scroll-based navigation, intersection-observer animations, and a multi-page form showcase using React Router.

EDUCATION

Bachelor of Computer Applications (BCA)

2021 – 2023

Maharaja Krishnakumarsinhji Bhavnagar University (MKBU), Bhavnagar
